

Summary

Fourth-year Computer Science B.Tech student with practical experience in building and deploying responsive web applications. Proficient in React, Next.js, and TypeScript, with a demonstrated ability to design user-friendly interfaces in Figma and develop full-stack solutions. Eager to contribute to a dynamic software engineering team and apply technical skills to solve real-world problems.

Skills

Languages: C, JavaScript, TypeScript, Python
Frameworks: ReactJS, NextJS
Tools & Libraries: Tailwind CSS, Figma, Git, GitHub

Experience

GTech Mulearn Web Interest Group Lead Intern

Aug 2025 - Present | Remote

- Coordinated "Build My Web," a program designed to help students enhance their web development skills through hands-on projects and mentorship.
- Organized and facilitated "Ideaverse," a reverse ideathon in collaboration with Google Developer Groups (GDG), fostering innovation and problem-solving among participants.

Freelance Developer — Integrion Waitlist Website

May 2025 | Remote

- Developed a responsive waitlist website for the startup Integrion using Next.js, TypeScript, and Tailwind CSS.
- Focused on implementing an efficient and seamless user experience to support initial user acquisition.

Freelance UI/UX & Frontend Developer — MoniMind Web Application

Feb 2025 - Mar 2025 | Remote

- Designed and optimized a responsive, user-friendly User Interface (UI) in Figma and developed the frontend using ReactJS and Tailwind CSS.
- Collaborated on functional and styled code development, ensuring high performance and visual consistency.

Projects

BeyondSyllabus: Developed a web application using Next.js to integrate AI models with university syllabi, creating an interactive study assistant for engineering students. github.com/Devika123098/BeyondSyllabus

GenZ Gossiping Chatbot: Created a Gen Z slang-based celebrity gossip chatbot utilizing the Gemini AI API, built with a Python Flask backend and an HTML, CSS, and JavaScript frontend. github.com/Devika123098/GenZ-ChatBot

Advyka: Designed the UI in Figma and developed a responsive frontend using ReactJS and Tailwind CSS for a college technical fest website. github.com/Devika123098/advyka2

Education

B.Tech in Computer Science and Engineering — College of Engineering Perumon (2022-2026) | CGPA: 8.57

Higher Secondary Certificate — Govt HSS Koikkal (2021) | 98.5%

Leadership & Activities

Frontend Developer — Builder Clan (Aug 2025 - Present)

Core Team Member — The Purple Movement (May 2025 - Present)

Participant: TINK-HER-HACK 3.0, YUDHYA HACKATHON, INNOMATICS HACKATHON
